

Dr. Brian K. Batten is senior coastal scientist and technical leader with Dewberry's climate change and special initiatives department. He has worked in the field of coastal hazards for over 14 years, specializing in coastal erosion, flood processes and geospatial analysis. Brian has served as a technical lead for SLR studies funded by FEMA, NOAA, Sea Grant, the Transportation Research Board, as well as the states of North Carolina and New York. Prior to joining Dewberry, Dr. Batten was a research scientist for the U.S. Army Corps of Engineers at the Coastal and Hydraulics Laboratory. He received a B.S. in Marine Sciences from Coastal Carolina University, a M.S. in Marine Environmental Sciences, and a Ph.D. in Coastal Oceanography from the Marine Sciences Research Center at the State University of New York, Stony Brook.
